No. 32.—21st August 1929.—Mr. Indu Bhusan De, Assistant Executive Engineer, passed the Professional Examination held on the 26th July 1929.

No. 25-I.—23rd August 1929.—In exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of the previous notification on the subject, No. 5, dated the 12th April 1915, the Governor in Council is pleased to make the following rules for the lines of navigation known as the Eastern Canals and the Outer Boat Route, as defined in notification No. 230, dated the 23rd July 1895, and for the navigable channels extending from Khulna in the district of Khulna to Magura in the district of Jessore as defined in notification No. 7, dated the 1st September 1914:—

Rules.

1. The Superintending Engineer, Southern Circle, may define the limits within which no loading or unloading of cargo from or to vessels or mooring of vessels shall be permitted. The prohibited reaches shall be notified by the supervisor of the channels by posting notices on signboards in the locality and also by beat of drum.
2. At places where mooring posts have been provided by the supervisor, vessels desiring to moor shall be made fast to such posts by the bow and stern in a single line along the banks or in such other manner as the supervisor may direct.
3. Vessels, while moored, should be kept as close to the banks as possible. As the water falls, the bow and stern ropes should be slackened and the vessels gradually pushed towards the centre of the channel. During flood tide vessels must be brought as close to the bank as possible.
4. While mooring at the tow-path side all vessels must lower sail and mast and must not erect any high pole, so that the towage of other vessels may not be obstructed.
5. In order to avoid collision or confusion, vessels waiting at the junction of two or more rivers for a favourable tide must be moored at a distance of not less than 1,000 feet from the point of junction.
6. No vessel or raft shall be moored in such a position or navigated in such a way as to endanger the safety or obstruct the passage of other vessels but must be so moored or navigated as prescribed by these rules or as directed by the supervisor of the channel or his assistants.
7. The supervisor may, by posting notices, prohibit the dropping of anchors or the erection of bamboos or poles in any part of the line of navigation.
8. No jetties, either permanent or temporary, for the purpose of loading or unloading cargo shall be constructed without the previous permission of the supervisor.
9. The supervisor, or an assistant authorised by him, may remove any vessel, anchor, pole, or any other thing which he may find in a position which is in contravention of rules 1 to 8 and may deal with them in such a manner as he thinks necessary.
10. Whenever a laden vessel is seized by the supervisor or by his assistants he shall give immediate notice of the same to the owner or his agent and require the removal of the cargo without delay, and shall warn him that he will be required to pay all expenses necessary for the proper custody and storage of the same.
11. Vessels plying in the narrow channels mentioned below shall not use sail:—
 - (a) Guntia Khali khal (in the reach, mile 68 to mile 72).
 - (b) Cut No. 2 (in the reach, mile 78 to mile 82).
 - (c) Baitaghata khal (in the reach, mile 102 to mile 107).
 - (d) Alaipur khal (in the reach, mile 121 to mile 130).
 - (e) Bemorta khal (in the reach, mile 136 to mile 143).
 - (f) Damodar khal (in the reach, mile 152 to mile 156).
 - (g) Banstoli khal (Outer Boat Route).
12. Where there is a tow-path on one bank only, vessels plying with the current shall keep to the opposite bank, and allow towage to those proceeding against the current.
13. No person is permitted to place any obstruction on the channel banks, roads, drains, canal side bridges, etc., which will impede a free passage along them, or cause injury to them, or to commit any nuisance, or to deposit any obnoxious material thereon or in the channel.
14. No person shall deposit goods of any description on the slopes of the channel between the water line and the high bank, without the previous permission of the supervisor except during the actual process of loading or unloading vessels.
15. All timber must be drawn up on to the bank well above the water.

16. No person shall wilfully or negligently allow a vessel to sink in any part of the line of navigation.

17. All vessels, whether travelling or moored in the channel, between sunset and sunrise, must carry a white light in a lantern on the fore-part of the vessel, where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first part of this rule. This rule does not apply to small uncovered dinghis, not exceeding 15 feet in length, while moored along the bank.

18. The supervisor may, by posting notices on sign-boards, specify a speed-limit for vessels in any reach.

19. *Wrecks*.—In the case of a wreck the supervisor or his subordinates shall offer every assistance in removing the same.

20. It shall be the duty of the supervisor to mark the wreck and to erect warning signals to avoid danger to navigation.

21. If, after seven days of the occurrence of a wreck, prompt measures are not taken by the owner to remove it from the line of navigation, the supervisor, after giving notice to the owner, may arrange for the removal of the same at the expense of the owner. Further, if a wreck obstructs the fairway, the supervisor may take action at once to remove the same and may incur whatever expense is necessary.

22. In the event of the salvage of a wreck being undertaken by the owner of the vessel, or by his agent, and of the obstruction not being removed within seven days, a fine not exceeding Rs. 5 per day for the period commencing from the 8th day of the wreck, or any other day specified by the supervisor, till the wreck is salvaged, shall be paid by the owner to the supervisor. If the fine be not paid by the owner or his agent, the vessel or any portion of the cargo may be seized by the supervisor and disposed of by sale as directed in section 9 of the Canals Act 5 of 1864.

23. When the supervisor or his assistants remove a wreck, they shall not be liable for any damage to the vessel or cargo, or for any loss before, or in the process of salvage done by them.

24. As soon as a wrecked vessel is salvaged by the supervisor or his staff, a notice shall be issued by him calling on those concerned to pay to the supervisor all the charges incurred by him on account of the salvage of the vessel or of removing or guarding the cargo under the following heads:—

- (i) Actual cost of salvaging the vessel.
- (ii) Cost of serving the notice.
- (iii) Cost of removal, maintenance, custody and protection.
- (iv) Godown charges.

In case of any dispute regarding such charges, the Executive Engineer concerned, on receipt of a written application from the owner of the vessel, shall decide the amount to be paid and his decision shall be final.

25. The vessel, or its cargo, shall not be handed over to the owner until the charges levied under rule 24 have been paid.

26. If, within fifteen days from the publication of a notice under rule 24, or in the event of an application to the Executive Engineer appealing against the notice within fifteen days of the date of the Executive Engineer's decision, the sum demanded be not paid, the vessel, its furniture and any portion of the cargo recovered, shall be sold by the supervisor, by public auction, and the proceeds dealt with in accordance with section 9 of the Canals Act 5 of 1864.

27. All notices under rules 21, 22 and 24 shall be issued in writing by the supervisor, and despatched in a registered cover to the owner of the vessel. If the owner be not known or cannot be traced, a general notice shall be posted on the notice board of the Executive Engineer's office. Also it shall be announced by beat of drum at the hat nearest to the place of salvage, and also by advertisement in at least one English and one vernacular Calcutta or local newspaper.

28. No officer of any description or rank employed on the canals shall, either directly or indirectly, bid for or purchase any article sold under these rules or under the provisions of the Act.

29. For any infringement of rules 1 to 8 and 11 to 18, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 and to an additional fine not exceeding Rs. 5 for each day that the infringement is continued.

Land Acquisition.

Midnapore.—No. 11117L.A.—22nd August 1929.—The following agreement is published under section 42 of the Land Acquisition Act, I of 1894, for general information:—

Agreement.

Memorandum of agreement made this 21st day of August 1929, between the Midnapore Central Co-operative Bank, Limited, a registered society within the meaning of the Co-operative Societies Act, 1912 (II of 1912), and having its registered office in the town of Midnapore (hereinafter called the society) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas, for the purpose of the construction of an office building, officers' quarters and other necessary out-houses for the Midnapore Central Co-operative Bank, Ltd., the society has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, I of 1894, of the piece or parcel of land containing 0.31 of an acre or thereabout situate in the town of Midnapore in the district of Midnapore and more particularly described in the schedule hereto and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire, on behalf of the society, the piece or parcel of land hereinbefore described.

* Not printed herewith but may be inspected in the office of the Collector of Midnapore.

And whereas the said Government of Bengal has required the society under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows:—

1. On demand the society shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the society under the last preceding clause not being thereby limited, the society shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the society of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal (on deposit by the society of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the society and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the society.

4. The said land shall be held by the society for the purposes of its office buildings, officers' quarters and other necessary out-houses as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said office buildings, officers' quarters and other necessary out-houses shall be completed (and fully equipped in all respects ready for use) within one year from the date on which possession of the said land shall have been given to the society.

6. Should the said office buildings, officers' quarters and other necessary out-houses be not completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause, then and in any such case, the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon whether such buildings were erected before or after transfer of the said land to the society and thereupon the interest of the society in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(i) Should the said Government sell the land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the society.

(ii) Should the said Government decide not to sell the land and buildings, the said Government shall retain the said land and buildings thereon, in which case the Secretary of State shall repay to the society the market value as on the day of re-entry of all the buildings erected by the society and all sums received from the society in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sums paid and received on account of costs, charges and expenses.

(iii) Should the said Government decide to sell the buildings only upon such sale the Secretary of State after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the society, together with the sum received from the society in respect of compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the society on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sum paid and received on account of costs, charges and expenses.

Remarks.

The normal surplus shown in column 20 does not represent the true financial position for the following amongst other reasons :—

Firstly the computation of the normal surplus from the difference of the actuals of the ordinary income and of the ordinary expenditure on the average of the past three years is far from correct, in view of the fact that the demand is enhanced every year as a result of re-assessment of two wards by rotation and necessarily the collections have a tendency of upward movement.

Secondly, the sum of Rs. 68,728 collected by the evening of the 28th March 1929 could not be lodged in the Imperial Bank of India for credit to municipal fund owing to the bank having remained closed from the 29th March 1929 and the 1st April 1929 on account of the Easter holidays. The average ordinary income would have been raised by Rs. $\frac{68,728}{3}$ or Rs. 22,909 and the surplus by the like amount had not the holidays intervened.

Thirdly, the scheme to be financed by the loan is calculated to give a better supply of water which will enable the Commissioners to include almost the whole town within the water radius, thus causing an appreciable rise in the revenue.

Fourthly, the post of the Sanitary Superintendent was abolished from 1st January 1929, resulting in an annual saving of Rs. 7,800. The figures for 1928-29 could not make for more than two months' savings.

Then again by the freer use of the summary process prescribed by the Bengal Municipal Act availed of by the present body of the Commissioners, much improvement in the

collection of rates and taxes is expected. In addition, an experiment is being made of an expedient for replacing man-power by mechanical devices in the matter of transit of night-soil. This, it is expected, will effect a great saving in the working expenses of the latrine fee fund, reflecting a much stronger position of the said fund.
